Abdullah Al Masud

Senior Mobile App Developer (Android, Flutter & KMP/CMP)

Summary

Senior software engineer with experience in the mobile application development industry, specializing in native Android, Flutter, and Kotlin Multiplatform (KMP/CMP) applications. Skilled in REST API, GraphQL, gRPC, and WebRTC integrations, with additional experience in backend development using Laravel.

Experience

2021–Present **Senior Software Engineer**, *NybSys Inc.*, Dhaka

- Developed Android, Flutter, and KMP/CMP applications utilizing clean architecture and SOLID principles.
- Building a KMP/CMP mobile app (CDAS) for DataNet — a NybSys sister company operating in Eswatini (formerly Swaziland), Lesotho and South Africa — targeting Android & iOS with shared business logic.
- Integrated REST API, gRPC (Protocol Buffers), GraphQL, and WebRTC communication layers across multiple projects.
- Implemented modern practices including Jetpack Compose, Hilt and Koin as dependency injection, reactive programming with Kotlin Coroutines, Flow, RxJava and Dart Streams.
- Collaborated in Agile teams; conducted code reviews and mentored junior developers.

2020–2021 **Mobile Application Engineer**, *XOR Geek*, Dhaka

- Built cross-platform and native apps.
- Contributed to web backend (Laravel) for admin panels and REST APIs.

Technical Skills

Languages	Java, Kotlin, Dart, Python, PHP, JavaScript, SQL, XML, HTML5, CSS3
Android	Jetpack Compose, Hilt, Coroutines, Flow, RxJava, Retrofit, Room Database, Google Maps
Flutter	Bloc, GetIt, GoRouter, Dio, Freezed, json_serializable, Dart Streams
KMP/CMP	Kotlin Coroutines & Flow, Ktor, Koin, Kotlinx Serialization, Compose Multiplatform
API	REST API, GraphQL, gRPC, WebRTC, Protocol Buffers
Web & Backend	Laravel, Bootstrap, HTML5, CSS3
Tools	Android Studio, VS Code, XCode, Git, Postman, Jira
Database	MySQL, SQLite, Firebase (RTDB & Firestore)
OS	MacOS, Windows, Android, Ubuntu

Projects

Flat-2B, House-59/60, Road-8, Block-C – Section-6, Mirpur, Dhaka-1216

CDAS Mobile App *(In Progress)*
A Kotlin Multiplatform (KMP) and Compose Multiplatform (CMP) mobile application for DataNet's Central Deduction Administration System (CDAS), serving government and financial sectors across Eswatini (formerly Swaziland), Lesotho and South Africa. The MVP includes: user login, deduction (loan) request submission, loan history, application status tracking, and user profile management. Targets both Android and iOS with a shared business logic and UI layer.
Tools: Kotlin, KMP, CMP, Compose Multiplatform, Coroutines, Flow, Ktor, Koin, Kotlinx Serialization, REST API etc.

Xtreme VPN
A mobile app for Android platform providing unparalleled online security and freedom. Xtreme VPN stands as a fortress to safeguard your digital presence.
Tools: Java, Kotlin, REST API etc.

Sentra PTT
Developed a comprehensive push-to-talk communication application featuring AI-powered collaboration tools, real-time messaging, location sharing, and rich media capabilities for enhanced team coordination
Tools: Android, Java, Kotlin, gRPC, Protocol Buffers, Retrofit, RoomDB etc.

DrinkWell
A platform dedicated to providing clean and safe drinking water. Two Flutter-based mobile applications:
Pump Operator App – Enables operators to manage water ATM cards by registering users, recharging their cards, and generating daily reports.
Dealer App – Fund transfers from dealers to pump operators, track transactions etc.
Tools: Flutter, REST API, NFC tag reader etc.

One-Click Order
A mobile app for Android/iOS platform where a registered member by the company can access the app and order products.
Tools: Flutter, Dart, Http etc.

One-Click Order API & Admin Panel
Backend REST API and dashboard admin panel powering the One-Click Order app, handling authentication, product management and order processing.
Tools: Laravel, Bootstrap, PHP, MySQL etc.

Hokkaido Golf Club App
A mobile app for Android platform dedicated to a Golf Club. A registered member of the club can access and use the app.
Tools: Android, Java, Retrofit etc.

Augmented Learn
An educational app for Android platform that helps to teach preschool children with Augmented Reality.
Tools: Java, RxJava, Retrofit, ARCore, Photoshop, Blender etc.

Education

2015–2019 **B.Sc. in Computer Science & Engineering**, *Dhaka International University*, Dhaka
